Assignment Description:

In this assignment, you will embark on the journey of creating a draft of your presentation slideshow for the upcoming group project. The objective is to craft a preliminary version of your slideshow that includes essential elements, allowing you to brainstorm ideas and structure your content effectively. This individual assignment will serve as a foundation for collaborative discussions within your group meetings and will contribute to the success of your final presentation.

You can use PowerPoint, Gamma (AI slide generation)Links to an external site., or Canva to complete this assignment.

***The Gamma Slides must be set on shareable with link. Students need to connect their Google Drive correctly to Canvas. Inaccessible documents will be reassigned once before receiving a 25%.

***Canva slides must be saved as a pdf and uploaded to the assignment. The link will not share unless set correctly.

Instructions: The topic of the slideshow is your approved group project topic.

(AI Revolution)

1. **Title Slide:** Begin your slideshow with an engaging title slide that captures the essence of your presentation topic. Include the title, your name, course details, and any relevant visuals that set the tone for your presentation.
2. **Content Slides:** Create three content slides that outline the main points you intend to cover in your presentation. Keep these slides concise and visually appealing, utilizing bullet points, graphics, and minimal text to convey your ideas effectively.
3. **Work Cited Slide:** Ensure you provide proper credit by including a slide that lists the sources you've used to gather information for your presentation. Follow APA or the citation style specified by your instructor for accurate referencing.

Submission Guidelines:

- Create your draft presentation in the software of your choice (e.g., PowerPoint, Canva, or Gamma).
- Ensure each slide is thoughtfully designed with relevant, engaging content and visuals.
- Use your creativity to engage the audience while maintaining clarity.
- Make sure each slide follows basic accessibility guidelines.
- Rubric

Criteria	Ratings	Pts
This criterion is linked to a Learning OutcomeVisual Storytelling Using the right, specific images to create an inspiring and engaging slideshow. Avoids a text heavy, bullet point heavy show.		4 pts
This criterion is linked to a Learning OutcomeAesthetic Appeal Colorful and professional, builds an emotional appeal.		3 pts
This criterion is linked to a Learning OutcomeAccessibility The image and text is large enough for all people. Font choices are accessible to easily read. Considers the needs of the color blind. Utilizes contrasting colors.		3 pts
Total Points: 10		

Hello there,

I am creating a project with a group for my public speaking class, but I do not have time to create these three slides. Please pick an easy topic to cover regarding (AI Revolution). Read the directions carefully, and if you have any questions, reach out to me.
